Wilson and Miles:

TOPLEY & WILSON'S PRINCIPLES OF BAC-TERIOLOGY AND IMMUNITY 4th edition

". . . No other text dealing with bacteriology remotely approaches this one for completeness and the excellence of presentation. All who are interested in bacteriology should have access to this admirable edition." - New York J. Med.

"Nine years have clapsed since the publica-tion of the third edition of this book. The main ad vances during the intervening years have been in the fields of chemotherapy and antibiotic agents. The changes in the text have been mainly along these lines. This is still a book unique in many ways, distinguished by its delightful style, lucidity, and sober common sense, and there is still no better critical introduction to immunology than part 3.7- J.4.M.4.

By G. S. Wilson, M.D., F.R.C.P., D.P.H., Director of Public Health Laboratory Service, England and Wales; and A. A. Miles, C.B.E., M.A., M.D., F.R.C.P., Professor of Experimental Pathology, University of London, and Director of the Lister Institute of Presentive Medicine, London

B-B-L **EXCLUSIVE** WASHED. POOLED CELL SUSPENSIONS, CAPPEL

THE CLEAR SUPERNATANT, TELLS THE STORY!

Even after two weeks of refrigeration, the supernatant overlying uncontaminated B-B-L red cell suspensions remains crystal-clear, indicating freedom from hemolysis ..visible evidence of thoroughness of washing and constant isotonicity.

STABILITY CONVENIENCE ECONOMY

Exclusive B-B-L methods insure cell suspensions of unique stability, purity, and uniformity

Eliminates tedious, time-consuming cell collection and washing Longer-lasting suspensions avoid waste...stock cell suspensions are easily diluted to any of the usual working suspensions

#12/100 SHEEP CELLS, Washed, Pooled Suspension

for complement-fixation and heterophile antibody tests

#12/200 RABBIT CELLS. Washed, Pooled Suspension

for Streptolysin "O" titrations

#12/300 CHICKEN CELLS, Washed, Pooled Suspension

for hemagglutination-inhibition test

#12/400 OX CELLS.

for ox cell hemolysis test for Infectious Mononucleosis

Washed, Pooled Suspension

for hemabsorption test

#12/500 GUINEA PIG CELLS. Washed, Pooled Suspension

Available in 15 ml. serum vials—rubber stoppered, aluminum seal

OTHER ANIMAL BLOOD PRODUCTS, CAPPEL

#10/101 sheep blood, citrated #10/103 sheep blood, defibrinated

#10/203 horse blood, defibrinated

#10/303 rabbit blood, defibrinated

STERILE ANIMAL BLOOD

#10/503 bovine blood, defibrinated

#10/102 sheep blood, Alsevers

(equal parts blood and modified Alsevers solution)

#10/402 chicken blood, Alsevers Available in 15 ml. serum vials — rubber stoppered, aluminum seal

STERILE POOLED SERUM

#11/630 — sheep #11/650 - chicken #11/680 - swine#11/610 - horse #11/620 - bovine #11/660 — beef (amniotic fluid) #11/685 - lamb#11/640 - rabbit #11/625 - calf#11/210—sterile, unfiltered horse serum (prepared especially for tissue culture) Available in 100 ml. serum vials — rubber stoppered, aluminum seal
